Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

2. Claims 1, 2, and 20 are rejected under 35 U.S.C. 102(e) as being anticipated by Butts et al. U.S. Patent 6,467,153. Referring to claim 1, Butts discloses a method for installing a head stack assembly into a basedeck assembly to form a head disc assembly of a disc drive (abstract and Fig. 14), comprising steps of: (a) directing a robotic arm to pick and place the head stack assembly into the basedeck assembly (col. 1, lines 18-30); (b) determining compliance of mechanical resistance encountered as the head stack assembly engages the basedeck in relation to installation force magnitude and rate of change of installation force magnitude, over time and position (Fig. 14 and col. 1 and 2, lines 60-67 and 1-6); (c) seating the head stack assembly onto the basedeck assembly forming the head disc assembly, upon determining mechanical resistance

and slope compliance (col. 1, lines 18-30); and (d) releasing the head disc assembly from the head stack installation station (col. 1, lines 31-35).

Referring to claims 2 and 20, Butts discloses the method of claim 1 in which steps (a) through (e) are executed and controlled by an installation software program having installation steps stored on a recordable medium (col. 13, lines 5-24). Butts discloses a disc drive comprising: a head disc assembly with a head stack assembly; and means for installing the head stack assembly into the head disc assembly (Fig. 14, abstract, and col. 1, lines 18-30).

Allowable Subject Matter

3. Claims 3-17 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Charles R Kasenge whose telephone number is 703 305-8592. The examiner can normally be reached on Monday through Friday, 8:30 - 5 pm.
